Announcements.

ASSEMBLY.

Ed. REPUBLICAN:—Please announce the name of D. S. KNOX, of Tionesta, as an Independent candidate for Assembly.

We are authorized to announce the name of DANIEL HARRINGTON, of Kingsley, as an Independent candidate for Assembly. If elected he promises to represent the whole people, and not any party or faction.

JENKS AGAIN.

It appears that Jenks said something else to Conyer than Conyer said he did in his last issue. Conyer now says that Jenks said in regard to the language charged to him, "There is no truth whatever in it." If Jenks said this, he is undoubtedly guilty of telling an untruth, something which we would, from our knowledge of him, be slow to believe. And Conyer seemed to expect us to apologise for telling the truth about Jenks. Not any in ours. We have evidence that Jenks spoke the piece. Before we apologise we want better evidence that he did not.

SOLDIERS!

Do you believe that because you fought the Rebellion, you are thereby in honor bound to sustain those who did their worst to defeat the objects for which you fought?

The lynching of Republicans white and black, and the reign of terror gotten up by the Democracy of the South?

That because the negro was once a slave he shall have no chance now to get an education and better his condition?

That you should sustain that wing of the Democratic party which never sustained you?

That because all the papers whose editors choose, are allowed to spot treason, that you should therefore follow their lead?

Did you fight that the party which declared your ultimate victory to be only a record of "debt, slaughter and disgrace," might make your laws and live on the fruits of your victory?

We put these considerations in all candor and kindness. Please ponder them well.

More Fabrications.

But no party is so strong that it should not be cautious, but it should remember that "Eternal vigilance is the price of liberty." [That's just what Capt. Painter thought. It was the settled conviction of the Captain, as expressed at the Leomis House, Clarion, in the presence of H. H. May Esq., of Tionesta and others, that if a certain Major had kept his vigils, and not got drunk, he might not have been deprived of his liberty by being taken prisoner by the "Johnnies," on which account he became a great martyr, was promoted to the rank of General, was sent to the Legislature several terms to assist the Ring thieves in robbing the people, and is now on his knees begging for still higher recognition at the hands of an indignant people.]—Press.

If there's one thing more than another we dislike in journalism, it is insinuations. The fling contained in the above, is meant, evidently for General White, but why couldn't the Press have said Harry White? Was it be-

cause it was aware that the story would not stand investigation?

Now we have the word of Jacob Zents, well known to the editor of the Press, and to most of our readers in this county, as an honest man, and who was a soldier in Harry White's regiment during the war, that "Captain" Painter was dishonorably dismissed from the army for stealing the rations of the regiment of which he was commissary, or in the commissary department. Further, that Harry White was a brave and good soldier, who did his duty like a man, and was well liked by his regiment. And on such evidence as "Captain" Painter, who was no captain at all, but who was dismissed for dishonesty, would the Press besmirch the war record of a gentleman like Harry White. The Press is the paper that says "Truth is all we need this hitch."

IMPORTANT ANNOUNCEMENT.

In 1871 I invented and secured letters-patent for an Improvement in Wash Boilers. A simple arrangement by which steam was applied to the washing of clothing. I have heretofore sold this under the name of

Steam Washer, or, Woman's Friend.

For such it is in fact. I have advertised it in nearly every Religious Newspaper in the United States and Canada, also in the leading Secular papers, using double-column advertisements. The readers of this paper may remember seeing my card in the various papers of the county during the past year. Extracts from letters received from my customers, in another column, will indicate how it has been received by the people throughout the country.

300,000

Have been sold already. It is sufficient for my purpose to say that one satisfied that nothing heretofore advertised ever rendered so general satisfaction. Yet this, my first invention, was not quite perfect, and for the last two years I have applied myself to the study of constructing and perfecting a

NEW STEAM WASHER.

And as the result of my efforts I feel every assurance that I have been entirely successful. My new Steam Washer, patented in 1873, is absolutely faultless; so much so that I never knew a single person, who had seen it work, fail to be delighted with it. It has rendered, thus far, perfect and Universal satisfaction, and such must be the result, for it works like a wonder—never failing to do all claimed for it. In conclusion, let me say, that should any one say that he has seen a Steam Washer, ask him if he has seen the new Steam

WASHER

Of 1873, now being advertised so extensively in whole and double-page advertisements. If in answer to the negative, request him to suspend judgment until a sample can be procured and fully tested. I will send one as

A SAMPLE FOR \$5.

—Just half the retail price,—and I fully warrant it. After a person buys a sample he can get them of me at cost.

\$60 Profit can be Made on a Single Dozen.

And I have known agents to take orders for

A DOZEN IN AN HOUR.

There is no way to make money faster. Send for a sample and secure your territory. Make no money while you can.

Reader, please consider the cost of my two page advertisement in the "CHRISTIAN UNION." It consists of 1,450 lines at regular rates amounted to

\$1,750 Each Insertion.

I repeated this "Card" four times because my first insertion (Oct. 8) paid me

500 PER CENT.

During the last eighteen months I have inserted my advertisement, occupying one to two pages, in

HUNDREDS OF 1st-CLASS PAPERS.

All of which paid well for the outlay; but the "Christian Union" ("the largest circulation of any religious newspaper in the world") pays me better than any, and the

INTER-OCEAN

PAYS BETTER THAN

Any Other Secular Paper.

I mention this fact, for all can see how extensively I advertise my invention; and taking into consideration the fact that I sell it entirely on its merits, and must concede that it sells well, for no article will sell well enough to pay for so expensive advertising without real merits. If I get a sample introduced into a neighborhood it often sells

AN HUNDRED MORE.

Such a splendid chance to make money selling this invention may never occur again. On the receipt of Five Dollars, I will ship you a complete Washer as a sample, copy of the chrome, together with a Certificate of Agency, with full instructions how to conduct the business, and upon the receipt of the Washer you may have time to test it, and if you find it not as represented I will refund your money. The Washer retails at \$10. After I send you a sample I will hold your county a reasonable time for you to decide whether you wish to purchase or not. I will furnish blank deeds, also blanks for taking orders, and will do all I can to enable you to succeed in the business. Let me hear from you soon, or your choice of territory may be taken by someone else. Address,

J. C. TILTON,

101 Sixth St., Pittsburgh, Pa.

FARMERS Money Saved is Money Earned. The undersigned are about introducing in Western Pennsylvania the celebrated Randall Fanning Mill, Grain Separator and Header Combined, which has attracted marked attention in the Western States wherever exhibited among the farmers. As a Fanning Mill it cannot be surpassed, and it is the only real separator and grader in the U. S. It is simple, rapid and complete, and gives you perfect control in chaffing, separating or grading your grain. The use of this Randall Mill will improve the condition of your grain, enhance the price from five to fifteen cents per bushel; and besides will largely increase the yield per acre, by the higher grade of seed you are enabled to obtain. With the Randall Separator you can also clean your own Grass Seed, thus saving a large annual expense for grass seeds. This mill works on an entire new principle as applied to Fanning Mills, and does its work to perfection. Canvasers will exhibit it during the season, when you will be able to judge for yourselves of its merits. Do not buy until you see it work.
